

Textured Matt Finish

The classic textured finish is a smoothly rippled matt effect created using a thick coating of self colour gel, to the same exacting specification as Lloyds approved marine grade materials used in boat building. This is our longest lasting, commercial grade finish, highly resistant to casual damage and stuffed full of UV filters. It's corrosion resistance is legendary, designed to survive long years in close contact with sea water. This finish will remain unchanging in the harshest of environments for many years. While the colour range is less varied than wet paint, we can still match all the usual RAL & BS colours plus a good deal of the more common commercial paint colours. Send us an original and we will usually be able to achieve a very close match.
